INTRODUCTION

The Bronx Directory of Health Services was created in an attempt to compile a centralized resource of regional health care services for persons with developmental disabilities. The original 1996 version of this directory has been expanded to include 76 entries. It is hoped that parents, consumers and professionals will be able to secure information that will help individuals locate and obtain health services for persons with special needs such as mental retardation and other developmental disabilities. All of the entries in this directory were included in response to a mailed questionnaire and telephone survey. Programs and services that did not wish to be listed or those that did not respond to our inquiries are not included in the directory. Inclusion in the directory does not constitute an endorsement by any of the organizations assisting in the development of this directory; therefore, consumers, parents and professionals should select programs carefully before enrolling or utilizing any services. Also, consumers should inquire as to specific eligibility criteria for access to health services listed within this directory.

Since the listings in this guide are not inclusive of all services, families and professionals should feel free to call the Consumer, Parent, Professional Partnership project to help you locate additional services or to answer any questions you might have. Our telephone number is (718) 430-8518.

Much thought has been given to making the information in this directory easy to use. We are grateful to all those individuals who took the time to make suggestions in formatting this directory. A very special thank you to **Phyllis Angelico** and **Jeannie Ramos** who carried out data collection, entry, editing and the indexing in the production of this 2010 guide. We also would like to thank the members of the **Health Services Committee of the Bronx Mental Retardation and Developmental Disabilities Council**, especially **Dorothy Stone** for updated entries, the **New York City Department of Health and Mental Hygiene** and

Metro Developmental Disabilities Services Organization of the New York State Office of Mental Retardation and Developmental Disabilities for their suggestions in the development of the health services survey.

Arnold Birenbaum, Ph.D.
Director,
Consumer, Parent, Professional
Partnership Project

Joanne F. Siegel, L.C.S.W.
Co-Chairperson, Health
Services Committee

How to Use This Directory

This directory is indexed in two different ways.

- (1) An alphabetical index by name of service agency, clinic or individual practitioner.
- (2) Alphabetical index of service categories; for example, neurological, ophthalmology.

Each alphabetical entry will indicate the page number where such a service can be located.

Services Provided: CERC provides a range of diagnostic and therapeutic clinical services for Infants, children, and adolescents with problems derived from physical, pediatric developmental, hearing, language and learning disabilities. The Center annually follows over 8,000 children and initiates services to approximately 2,000 new referrals. CERC's staff of 130 professionals includes: developmental pediatrics, pediatric neurology, physiatry (rehabilitation medicine), psychiatry, ophthalmology, orthopedics, and otolaryngology, as well as special care dentistry and pedodontics. Allied health professions include psychologists, speech and language pathologists, psychoeducational specialists, social workers, pediatric nurse-practitioners, occupational and physical therapists, audiologists, child development specialists, and nutritionists. The eight multidisciplinary diagnostic units, which screen, evaluate, conference and provide case management services are:

- | | |
|---|--|
| 1. Infant Toddler Team (Birth – 2) | 5. Pediatric Rehabilitation Unit (Birth-age 18) |
| 2. Infant and Preschool Unit (Age 3 to 5) | 6. Developmental and Family Services Unit (Birth-18) |
| 3. School Age Unit (Ages 6-11) | 7. Children's Hearing Program (Birth-18) |
| 4. Adolescent Unit (Ages 12-21) | 8. Adult Literacy Program (LD. Adults) |

We also operate the Early Childhood Center, a Special Care Dental Clinic, the Fisher Landau Center for the Treatment of Learning Disabilities, and a host of specialty services, including:

- | | |
|--|------------------------------------|
| 1. Infant, Toddler Developmental & Behavioral Services | 5. OT, PT, and Speech Therapy |
| 2. Seizure Management | 6. Counseling |
| 3. Medication Management | 7. Genetic Consultation Evaluation |
| 4. Hearing Aid Evaluation and Fittings | 8. Autism Center (RELATE) |

Wheelchair accessible.

Translation is available in Spanish (French, Creole, Polish and Mandarin are available on a limited basis).
